Actual Bib-Overall Waist Size	36"	39"	42"	46"	50"	54"	58"	62"

MEASUREMENTS ARE IN INCHES

WORKER MEASUREMENTS: The actual measurements of the User's Body determined using a fabric measuring tape.

ACTUAL SIZE: Coat & Bib-Overall dimensions are larger than the worker's measurements to allow space for movement.

1

USE A FABRIC MEASURING TAPE

Hold the measuring tape firm and level.

CHEST: Measure just under arms and across shoulder blades.

WAIST: Measure around the natural waistline.

HEIGHT: Measure the worker's total height.

Tips: Measure height by sticking a measuring tape to a wall and have the worker stand up straight against it, use a ruler to mark the spot, then record their measurement.

2

SELECT THE ALPHA SIZE

After measuring the worker select the size using the table above. Each of these numbers represent the maximum measurement per size. Round up if in between sizes. Select the Coat & Bib-Overall size so the garment is larger than the worker's body measurements. Some worker's require different size Coats vs. Bib-Overalls. Hoods are one size fits all.

3

SELECT THE HEIGHT

All suits are sold as a Regular size. Short, Tall and Extra Tall sizes are custom Made to Order and not returnable.

Height Range (how tall is the worker):

Standard = 5'10" to 6'1"

Short = 5'7" to 5'9"

Tall = 6'2" to 6'4"

Extra Tall = 6'5" to 6'7"
